THEFT PREVENTION KIT Realistic In/Outdoor Dummy CCTV Camera with Flashing LED

A Dummy Theft Prevention kit that gives the appearance of a full CCTV security system without the cost and installation required of a full system. Can also be used alongside a working CCTV system to give the impression that a larger area is covered by working CCTV cameras. Bullet dummy camera is suitable for use outside and dome dummy camera is suitable for use inside, Each dummy camera incorporates a flashing red LED light (powered by 2x AA batteries, not included) and realistic looking lens to give a clear impression that it is actually a real CCTV camera. Installation is simple and fixings are included in the package.

Features

- Dummy Theft Prevention kit, Gives Impression of a Working CCTV Camera
- For Use Where Real CCTV is Prohibitive (Or Can Enhance a Real CCTV Installation)
- Flashing LED Light Powered by 2x AA Batteries (Not Included)
- Realistic "Lens" to Enhance Illusion of a Real CCTV Camera
- Bullet dummy camera is suitable for use outdoor and dome dummy camera is suitable for use indoor
- DIY-easily mount to your wall or ceiling in minutes with screws in the pack
